501 (c3) non-profit, volunteer, environmental education organization

Mission

We are fact-based educators who empower citizens, and inspire our future generations to care for our community and environment.

Vision Statement

Improving the health, safety, and welfare of our community and the environment.

Citizen Supporters – Get Your Water Tested!

For our citizen supporters, we provide a number of programs including:
water quality screening tests;
a review of water quality data from wells, lakes, streams, and other (aquatic sources);
solutions for non-point source pollution and septic system issues;
consultation on land-development, local energy solutions, and renewable/alternative energy;
free attendance at any local education event or presentation being hosted by the Keystone Clean Water Team;
assistance with grant applications and grant completion;
discounted services related to water testing and educational materials.

Partnership

The Keystone Clean Water Team understands that partnerships are critical. Working with local municipalities, landowner groups, and other non-profit organizations helps to better service our community. Through partnerships, we are able to leverage the resources of multiple organizations to increase our overall capacity. This synergistic relationship is important to our organization and to the future of every community.

Corporate or Business Partners/Sponsors- Would you like to support Keystone Clean Water Team?

To be part of the solution in Pennsylvania – Your Support of the Keystone Clean Water Team will help to protect, manage, and preserve the natural resources within our communities. If you would like more information about sponsorships, please contact our Chairperson, Mr. Brian Oram at (570) 335-1947.
